## ***Fellow Breeders***

It is with great pleasure that we present to you our sale selections for your consideration. Top bloodlines of the industry are represented and we feel as you have an opportunity to view the cattle that you will have to agree they have what it takes to meet today's breeding program in any herd.

These words were put on paper by me. The year? 1993. Yes this is our 27th sale! The words still ring true and we will be back next year. Please join us early on October 5th as lunch is on us. Thank you for your support. See you in Lindsay.

*Sincerely*

*Gerry*

Porter's 50S Glowbelle 5B  
Porter's 19H Bellevegas 7U

***I'm going to go out on a limb and say this is the most impressive heifer calf I have ever raised in terms of overall pounds and performance. If you like your beef cattle big and thick, you won't have any trouble finding her in the line-up. She's been shown alongside her dam this year. Her maternal brother Evolution is our show bull and walking bull, which is the only reason I can justify letting this one go.***

***What she lacks in ears and a tail, she makes up for everywhere else. Globetrotter has been my favourite heifer to show this year, and you're going to have to travel a long way to find another one like her. A full sister sold to Redwing Farms in last year's sale. This is the last of the Enzo progeny that will sell, and he has sired an outstanding group of calves in his lifetime.***

***If her first calf is any indication of how good of a cow Espresso is going to be, we maybe shouldn't be selling her. She calved, unassisted, then went on to raise one of the biggest steer calves and bred back for an early January calf. Espresso is a very feminine, short marked daughter of Zeus, out of a 9 yr old Harvie Triumph cow. Her granddam was in production until she was 15 yr old. Her dam gave us another outstanding heifer calf, which is why she is being offered. If you are looking to start a new cow family, Espresso will not disappoint. She was exposed to Elzevir Electric 707E from March 25 – April 28 and then Charsha Excavator 7E from April 28 – September 1. Checked safe in calf for an early/ mid January calving. Has had Express 10 & Ivermectin in the spring***
